

# E-Recycle

## Fundraiser for Rowland High School Saturday, May 31st from 9am - 3m

SpeedZone and E-Waste Center will be hosting an electronic waste recycling event at SpeedZone in the City of Industry. This event is being held in an effort to help raise funds for the various programs at Rowland High School while providing the local residents and businesses an opportunity to properly dispose their obsolete electronics.

This event offers the local residents and businesses a great opportunity to get rid of their unwanted, bulky and most of the times hazardous material-containing electronic items. Meanwhile, being part of the recycling solution will also help generate proceeds for various Rowland Unified School district programs.

Simply come by and drop off your e-waste – **receive a FREE gift card from SpeedZone\*** show your support and to help improve the environment and contribute efforts to the youth of today!

SpeedZone Los Angeles, 17871 Castleton Street, City of Industry, CA 91748
